

LabelSmart Network Diagram

Nortek's LabelSmart Software Suite is a modular label creation system designed for Nortek's line of label applicators. The package provides a consistent look-and-feel to each station. Label data, including serial numbers and date codes, can be maintained locally or over a network. LabelSmart can be used on a single machine or as a plant-wide standard.

LabelSmart Label Creation Software, including:
 Internal Serial Number and Date Code generation
 Barcode, 2D and Graphics capability
 Third Party Software interface compatibility
